You can link sections and/or citations directly to Course Readings from Blackboard.

Steps:
1. Open the reading list (via Blackboard)
2. Find the section or citation you want to link to
3. Click the 3 dots and select the “LTI Direct Access” link
4. Copy the link
5. Within Blackboard, create/edit an item
6. In the text editor click the Mashups dropdown
7. Select “Basic LTI Tools”
8. Select “Reading List” from existing tool options
9. Enter link text, then paste the copied link into the Tool Option Custom Parameters box
10. Select preferred option for “Open tool in”
11. Submit (tool)
12. Submit (item to be added)

Most courses use weeks (e.g. Week 1, Week 2, …), others use specific subjects, and others use resource types (e.g. Prescribed Text, Books, Videos, …). It’s up to you to decide what you will call your sections. More detailed information on how to setup Sections can be found in the Structuring Your List Guide.

It is recommended that you use Chrome when working with Course Readings.
